User Story	Task	Assigned to	Estimated Hours	Actual spent hours	Priority	Status	PR	Notes
As a developer I want to enhance the connector with more functionality. To enable myself to create a better agent.								
	Visit tygron	Michiel	5		B	Not Done		Discuss the possibility to split the environment
	Visit tygron	Stefan	5		B	Not Done		Discuss the possibility to split the environment
	Split environment into a seperate module	Stefan	10		C	Not Done		Optional: we will try to implement this, but maybe it is not possible or not needed
As an agent When in a simulation I am able to buy ground if I think this is benificial for me. To construct things that are part of my goals.								
	Explore the possibilities to decide on a piece of land to buy	Timo	5		A	Not Done		Priority A, It's very important that we have at least a plan this week
	Come up with a implementation idea and discuss it with the other groups	Timo	5		A	Not Done		Priority A, It's very important that we have at least a plan this week
	Implement the above implementation idea to decide on a piece of land to buy	Stefan	10		C	Not Done		Priority C, another group might do this
	Write goal code for the buyland module	Daan	5		B	Not Done		Priority B, it's important to make progress with the goal code at this point
	Write a test for the buyland module	Daan	5		B	Not Done		Priority B, tests are a rubric and should be sufficient
As an agent When in a simulation I am able to destroy stuff if I think this is benificial for me. To make room for construction or to optimize a certain indicator.								
	Percept different costs for destroying buildings and the floorspace of different buildings	Stefan	5		D	Not Done		Priority D, nice to have, but not necessary for our agent
	Determine the best building to destroy using the knowledge above	Job	3		D	Not Done		Priority D, nice to have, but not necessary for our agent
	Implement a sort method that sorts the buildings depending on the task above	Job	8		D	Not Done		Priority D, nice to have, but not necessary for our agent
As an agent When in a simulation I am able to build stuff if I think this is benificial for me. To optimize a certain indicator or to reach a construction goal.								
	Find out how we can build without just replacing an old building.	Michiel	9		A	Not Done		Priority A, It's very important that we have at least a plan this week
	Discuss with the other groups about this implementation	Michiel	5		A	Not Done		Priority A, It's very important that we have at least a plan this week
	Implement this new way in the connector	Michiel	8		C	Not Done		Priority C, another group might do this
	Enhance the goal code with the new implementation	Timo	7		B	Not Done		Priority B, it's important to make progress with the goal code at this point
	Enhance the test for the build module	Timo	5		B	Not Done		Priority B, tests are a rubric and should be sufficient
As a developer I want to descirbe myarchitecture so that it is clear to people what our architecture is								
	Extend the architecture document	Michiel	5		A	Not Done		Priority A, because it is a deliverable
As an agent I want to build green constructions to improve my indicator score								
	Determine a plan for when to build buildings and when to build green constructions	Job	3		B	Not Done		Priority B, because it's important to make a plan for this indicator
	Make sure upgrading a building to a green building improves the green indicator	Job	5		C	Not Done		Priority C, we're not sure if we are going to use thi
	Implement the above mentioned tasks in goal	Job	10		B	Not Done		Priority B, because it's important to implement code for this indicato
As an agent I want to handle requests so I can interact with other stakeholders								
	Enhance code to work with the new percept	Daan	2		B	Not Done		Priority B, since its needed to work with the latest environment
	Enhance the request module to respond on different kind of requests	Daan	4		B	Not Done		Priority B, because our agent really needs to start communicating well with other agents
	Test the request module so it works correctly	Michiel	3		C	Not Done		Priority C, because testing is important, but slightly less important than the implementation itself
As a developer I want to descirbe our interaction design so this design is clear to us and to others								
	Set up the final report file and add the interaction design sections.	Daan	1		C	Not Done		Priority C, its important but could also be done in later sprints
	Rewrite the user section so that its more fitting for our new approach	Daan	4		C	Not Done		Priority C, its important but could also be done in later sprints
	Write a plan for the evaluation turing test according to the feedback	Daan	6		C	Not Done		Priority C, its important but could also be done in later sprints
As a developer I want to make a sprintplan so that it is clear to all developers what needs to be done this week								
	Create a new sprintplan	Job	3		A	Not Done		Priority A, because it is a deliverable
	Create a new retrospective	Timo	3		A	Not Done		Priority A, because it is a deliverable
As a user I want an agent to have a vision with indicators, so that I know what to expect from this agent.								
	Fine tune the indicators: make them possible to fulfill in reality	Job	3		D	Not Done		Priority D, because it is not really important, but it is nice to make a plan corresponding to the reality
As a developer I want to demo my product so that my stakeholders can give feedback during development								
	Prepare demo for 8 juni	Daan	8		B	Not Done		Priority B, its the last feedback moment we will have

As a developer I want to test all of my code so that I'm sure that it works properly													
	Get the main module test to work, it always fails the in clause at the moment	Stefan	5		A	Not Done		Priority A, since we're graded on testing and atm although we have tests, they're not executed properl					
	Create tests for the request module	Timo	5		B	Not Done		Priority B, because tests are important to make sure our agent works properly					
	Create tests for the switching between goals	Timo	5		B	Not Done		Priority B, because tests are important to make sure our agent works properly					
	Totals	Stefan	35	0									
		Timo	35	0									
		Michiel	35	0									
		Job	35	0									
		Daan	35	0
